

JAMIE BUTLER

Digital Transformation Executive · Enterprise Technology Strategy · Technology Leadership

Houston, Texas · (951) 768-4008 · jamiadambutler@gmail.com · [linkedin.com/in/jamiadambutler](https://www.linkedin.com/in/jamiadambutler) · jamiebutler.vercel.app

EXECUTIVE SUMMARY

Technology executive with 20+ years architecting integrated enterprise ecosystems and leading digital transformation across legal services, healthcare staffing, financial services, manufacturing, retail, and education. Specialize in replacing fragmented systems with unified platforms—CRM, ATS, ERP, HRIS, CLM, cloud, and AI—and building the governance and automation that lets organizations grow without growing complexity. Operate at both the executive strategy and technical architecture layer, translating business outcomes into systems that scale and deliver measurable performance. Lead distributed onshore, nearshore, and offshore teams; own enterprise technology budgets, vendor portfolios, and security posture end to end.

CORE COMPETENCIES

- Digital Transformation
- CRM / ATS / ERP / HRIS
- Cloud Infrastructure
- M&A Systems Integration
- Enterprise Architecture
- Contract Lifecycle (CLM)
- Vendor & MSSP Management
- Distributed Team Leadership
- AI & Automation Strategy
- Cybersecurity & Governance
- Platform Migrations
- Executive Reporting & BI

PROFESSIONAL EXPERIENCE

Senior Director of Technology · Latitude Legal

April 2024 – Present

Leading enterprise technology strategy for a national legal talent organization—modernizing infrastructure, deploying AI, and building the operational foundation for scale across 150–500 users.

- Architected and executed Microsoft 365 tenant migration from hosted Exchange—tenant design, permissions, security policies, and SharePoint intranet replacing Dropbox company-wide.
- Led full CRM and ATS transformation from Bullhorn to Salesforce with Asymbl, Experience Cloud candidate portal, AI-powered GPT agents, and E-mail sync—unifying recruiting, business development, and client outreach on one platform.
- Replaced Dialpad and a costly third-party answering service with Zoom Phone and a fully automated AI IVR; migrated contract workflows from DocuSign and Adobe Sign to Ironclad (CLM) with native Salesforce integration.
- Researched, vetted, and deployed a dedicated MSSP with endpoint protection and VPN rollout—established formal cybersecurity governance and significantly strengthened security posture.
- Built a multi-path Microsoft Forms and Power Automate onboarding system routing hires by type to the correct teams and Planner boards; implemented Jira Cloud and Jira Service Management for SLA governance.
- Lead a distributed organization spanning ~10 in-house engineers, ~10 nearshore developers, and ~20 offshore developers across four post-acquisition systems integrations.

Vice President of Technology · AlliedUP Cooperative Inc.

April 2022 – April 2024

Directed full-stack technology transformation at the nation's first worker-owned healthcare staffing cooperative—owning a \$1M+ technology budget, board and grant reporting, and clinical-hiring compliance integrations.

- Consolidated BlueSky ATS and Salesforce CRM into a unified Bullhorn platform—eliminated data silos, moved recruiters off spreadsheets into a fully managed end-to-end system, and gave business development a dedicated CRM for the first time.
- Integrated AccuSource background screening directly into Bullhorn recruiting workflows with automated pass-through to ADP Workforce Now for PEO onboarding—eliminating manual handoffs and tightening clinical compliance consistency.
- Built executive and board-level KPI reporting pipelines on Bullhorn Canvas—replacing manual data extraction with real-time operational visibility for leadership, board members, and external grant stakeholders.
- Implemented ADP Workforce Now for HRIS, payroll, and benefits administration; migrated telephony to Zoom Phone—improving HR accuracy, compliance, and communication quality across a distributed clinical workforce.
- Owned \$1M+ technology and operations budget end to end: planning, forecasting, vendor contracts, and purchasing across 8 internal staff, ~5 nearshore engineers, and 10–20 offshore developers.

Director of IT Services · EOSG Resources, LLC

October 2014 – April 2022

Built and sustained an integrated enterprise technology ecosystem through eight years of substantial headcount and client growth—aligning technology investment at every stage to enable the business to scale.

- Led Oracle E-Business to Microsoft Dynamics migration—the organization's most complex initiative, including payroll integrations, financial reporting improvements, and cross-department data alignment.
- Directed a separate ERP migration from NetSuite to Sage Intacct with automated financial reporting and executive dashboards that reduced month-end close complexity.
- Replaced Avionte with Bullhorn ATS and migrated HRIS and payroll to PrismHR—improving pipeline visibility, cross-departmental data sharing, and accuracy across ~900 active clients.
- Designed end-to-end integrations between ATS, payroll, and ERP—creating a continuous automated data pipeline from recruiting through financial reporting.
- Built SOPs and process maps across recruiting, sales, and finance, establishing the operational framework that supported sustained growth; led a team of 10 field admins and engineers.

EARLIER TECHNOLOGY LEADERSHIP

IT Manager (Contract) · Oreq Corporation

February 2013 – April 2014

- Led Macola ERP migration connecting manufacturing, procurement, and logistics; built custom Crystal Reports and executive dashboards; scaled a remote business development department; deployed manufacturing-floor time tracking that addressed turnover-driven bottlenecks.

Engineering & IT Manager · Cannon Fabrication, Inc.

January 2006 – February 2013

- Led full ERP implementation from legacy DOS-based accounting to Sage MAS 300 across a manufacturing and distribution operation; migrated engineering from AutoCAD to SolidWorks; built integrated KPI dashboards combining ERP, CRM, and production data for executive visibility.

IT Manager / Senior Data Analyst · Casablanca Fan Company (acq. Hunter Fan)

July 2005 – November 2006

- Built cross-functional sales and operational dashboards presented to leadership in regular performance reviews; managed cybersecurity, compliance, data integrity, VOIP, and full IT infrastructure including Active Directory.

Business Analyst II (Contract) · Anchor Blue Retail Group

March 2005 – July 2005

- Contributed to \$1M inventory management system implementation across all retail locations; developed internal POS database and IT support ticketing system.

Network / Systems Administrator · ITT Technical Institute

December 2003 – March 2005

- Built proprietary student grade tracking database replacing a fully manual process; managed Active Directory, Cisco routing, VPN, SolidWorks administration, and campus network migration to new infrastructure.

TECHNOLOGY ECOSYSTEM

Platforms (CRM / ATS / ERP / HRIS / CLM): Salesforce, Bullhorn, Avionte, Asymbl, Ironclad, NetSuite, Sage Intacct, MS Dynamics, PrismHR, ADP Workforce Now, Workday

Cloud, AI & Automation: Microsoft 365, Azure, Entra ID, AWS, Google Workspace, Zoom Workplace, GPT agents, LLM integration, Power Automate, Zapier, AI IVR

Data, BI, ITSM & Security: Power BI, Tableau, SQL Server, Crystal Reports, Canvas, IBM Cognos, Jira Cloud, JSM, NinjaOne, ServiceNow, SharePoint, Slack, Sophos, SentinelOne, Teams, MSSP, VPN, GDPR, PCI DSS

EDUCATION

MBA, Business Information Systems (2010) · ITT Technical Institute

B.S., Computer Science — Information Systems Security (2008) · ITT Technical Institute

A.S., Computer Science — Computer Network Systems (2005) · ITT Technical Institute
